VOLUME NO. 39.

WHITESBURG, LETCHER COUNTY, KENTUCKY, THURSDAY EVENING, OCTOBER 4, 1945.

NUMBER 13.

HARRY M. CAUDILL EXPLAINS G. I. BILL OF RIGHTS

In last week's issue of the Mountain Eagle there appears a statement by my opponent which contained a number of questionable or false declarations. One such questionable declaration was to the effect that while I can resume my education at government expense the sum made available to himself for that purpose would not be sufficient to allow him to return to college and at the same time support his wife and child. As proclaimed by a number of signs posted throughout the county, the rallying-cry of his campaign has become, "Give a wounded soldier with a family a chance." In order that the public may clearly understand the provisions of the G. I. Bill and know that any veteran of World War II DOES have a chance to support his family, I wish to make the following explanations:

The popularly-called "G. I. Bill of Rights" makes educational provisions for two classes of veterans. The first class includes only able-bodied veterans of World War II and is clearly not applicable to either my opponent or myself, since each of us was disabled in the military service of the United States. The second class includes all veterans of World War II who are disabled ten per cent or more. I am definitely in this class and pre-serve my opponent to be so. Let us examine the benefits offered veterans of this war and see whether or not it is financially possible for him to resume his education.

The Federal Government will pay all the school fees of either of us up to five-hundred dollars (\$500.00) per year and buy all of our text books. Thus anything either of us would owe the school of our choice would be accounted for. In addition, each of us would receive certain amounts designed to meet our living expenses each month. The sum I, as a single man, would receive would be adequate to meet my needs. MY OPPONENT WOULD RECEIVE ONE HUNDRED AND TWO DOLLARS (\$102.00) MONTHLY and I leave to the judgment of the voters the question of whether or not that sum would

Town of Neon Is Now Free of All Indebtedness

Mr. Tucker also stated that he would again be a candidate to succeed himself as Mayor in the coming November election.

J. C. Codell and Engineers Here This Week.

This week Mr. J. C. Codell and his staff of Engineers and Superintendents were here in the county figuring on the proposed railroad that will connect Virginia and Jenkins that has lately been announced by the C. & O. R. R. Co. The proposed road according to Mr. Codell when completed will cost approximately \$6,000,000, and will have one of the longest tunnels in Kentucky.

Mr. Codell says the part of the road planned by the C. & O. was also figured on and it will cost in the neighborhood of \$5,000,000 when completed.

The Codell Construction Company which Mr. Codell has built many roads in Letcher, Lincoln and Southern Kentucky, also many other roads throughout the entire state. This company is now employed on the new L. & N. Road at Cloesplint, Ky. in Harlan County.

Boy Scout Field Executive Discharged From Army

Chas. A. Blaine, former Field Executive of the Big Piney District Lonesome Pine Council, returned to Camp Blanding, Fla., on September 21st, P.M., where he has been confined for the last nine months. Mr. Blaine has already gone back into Scouting in this Council, and will be employed as Assistant Executive, working with Mr. Harold Hayes, the Council Executive.

Since the war began, the training of adult leaders, and the organization of district activities has suffered particularly in this Council. Never, since 1941 has this Scout Office had the services of half the number of Executives that it normally employs. Despite this fact, the total number of Scouts registered has continued to increase. Mr. Blaine will be engaged in the recruiting and training of adult leaders, and the building up of the various District Organizations of the Lonesome Pine Council.

Nembutal Drunks Give Police Trouble In Harlan Co.

Harlan, Ky., Oct. 2.—The "black market" of nembutals . . . a barbiturate that is supposed to be taken only on the advice of physicians . . . is giving Harlan City police as much trouble as liquor.

More than 3,000 of the capsule sedatives, being used by addicts to bring about a drunkenness, have been taken off city jail prisoners in the last month.

More than 600 were found in the possession of one man.

As a result of this disclosure, the Harlan County Medical Society, the Harlan County Health Department and the State Department of Health have become interested in the free flow of the drug-like capsules.

Dr. Tracy Jones, president of the Harlan County Medical Society, and Dr. S. L. Andelman, county health officer, said yesterday they were acting "to do something about it." The problem is one of the Police Department's biggest "headaches" according to Asst. Chief of Police Avery Hensley.

"More than half of the men and women we lock up for drunkenness are 'hopped up' from nembutals," Hensley said. "We have had several crimes committed by nembutal addicts."

Dr. Jones reported that two deaths in the county recently were attributed to the barbiturate.

The problem facing the police and health authorities is the finding of the source of supply.

Police authorities are not blaming drug stores. They say that while some may come from the drug stores, the supply in the hands of bootleggers originated from greater source.

They said those want either state or federal authorities to look into the situation.

The federal action, if any, would have to come through the Federal Pure Food and Drug Administration because the nembutals do not come under narcotic classification.

EDUCATION AND TRAINING UNDER G. I. BILL

A. World War II veteran, who had 90 days or more of active service and who was discharged under conditions other than dishonorable is entitled to education or training under the "G. I. Bill of Rights." The veteran who meets these requirements is entitled to education for one year. If the veteran was under 25 years of age at the time he entered service, the law presumes his education was "interrupted or interfered with," and he is entitled to education or training for the one year plus a period equal to the number of days of active service. A veteran who was 25 years of age or older, at the time he began his active service is entitled to education or training for a "refresher" course not to exceed one year, or such lesser time as may be required. However, if that veteran who was 25 years of age or over can show that his education was interrupted or was interrupted by his entering the service, he

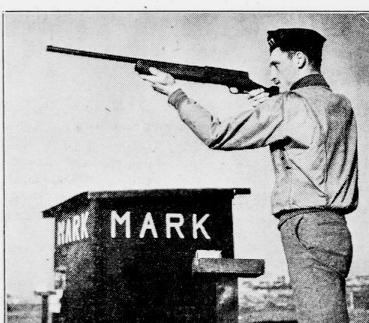

is eligible for additional education or training beyond the one year the same as the veterans who was under 25 years of age.

Only schools, industrial and mercantile establishments which are approved by the Veterans Administration. Veterans who wish to pursue such courses at a particular institution may learn whether it is approved by inquiring at this office or the nearest office of the Veterans Administration.

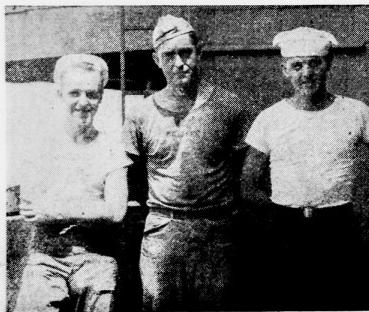

Application for training is made on the Veterans Administration Form 1950. This application, after completion, should be sent to this office or that of the Veterans Administration, accompanied by a certified copy of the veteran's discharge certificate. The Veterans Administration will then process the application and issue a Certificate of Eligibility which will indicate that he is entitled to education or training and the period of time of training he is entitled to. The Certificate is presented to the Registrar of the desired institution on the date of registration.

Tuition fees not to exceed \$500.00 for a school year is paid by the government. In addition, the veteran is paid a subsistence allowance of \$50 per month if he has no dependents, and \$75 a month if he has dependents.

WAINWRIGHT INSPECTS SON'S SHIP

General Jonathan Wainwright, hero of Corregidor, upon his arrival in the United States, after inspecting his son's ship, the "Lakeland Victory", said, "I am proud that my son, Commander Wainwright of the United States Maritime Service, is part of this great American Merchant Marine. The youth of the nation and the training they are given now in service in the Merchant Marine will greatly effect the post-war economy of the United States. The winning of the war depended upon the amount of supplies that were delivered by this great fleet to every Pacific base and beachhead." Coincident with the General's arrival in San Francisco, his son's ship happened to be docked in this same city.

Volunteers for United States Maritime Service training to serve in the Merchant Marine are still being accepted at the Regional Enrolling Office in Cleveland, it was pointed out by Lieutenant D. C. Phillips, Regional Enrolling Officer. Interested men between the ages of 17 and 50 should contact the United States Maritime Service Enrolling Office, 1720 Euclid Avenue, Cleveland, Ohio in person or by letter. Full particulars may also be obtained from any United States Employment Office.

VETERANS ASKED TO REGISTER AND SAFE GUARD MACHINE GUNS, AUTOMATIC WEAPONS

—V—
Washington, Sept. 27.—In behalf of public safety, Joseph D. Nunan, Jr., Commissioner of Internal Revenue, today appealed to all members and veterans of the armed forces and their families to register and safeguard all machine-guns and similar automatic weapons which have been brought into the country as war trophies.

Calling attention to the mandatory provisions of the National Firearms Act of 1934, and the regulations promulgated thereunder, Commissioner Nunan said:

"We have hesitated to do anything to hinder service families in the enjoyment of their richly-earned trophies of war. However, our attention has been called to several instances in recent months where criminals have stolen or otherwise acquired war trophy guns and have used the weapons for criminal purposes. I am issuing these cautions for the safety both of service families and the public at large.

"Under the law registration must be made at once by every professor of any firearms of the automatic type, such as machine pistols, machine guns, submachine guns or any type gun from which a number of shots or bullets may be discharged with one continuous pull of the trigger. I urge all servicemen, veterans, and their families having any such guns, to communicate at once—in person, by telephone, or mail—with the nearest office of an Investigator in Charge, Alcohol Tax Unit, Bureau of Internal Revenue, or to write to me in Washington. A representative of the Bureau will call and assist them with the registration without charge.

"At the same time, I urge possessors of these weapons to accept the assistance of the Bureau representative in rendering them inoperative. This will not affect the souvenir value of the weapons, but will prevent accidents and keep them out of the hands of the criminal element.

"Furthermore, as long as the weapon is serviceable, the law requires payment of the \$200 tax upon each sale, exchange, gift, or other transfer of the firearm. If the gun is made permanently inoperative, it may be transferred as a war trophy without payment of the \$200 tax by the filing of Form 5 (Firearms) with the Commissioner of Internal Revenue, Washington, D. C.

"I earnestly hope that service families will understand that these cautions are being issued for their protection—not only against the consequences of possessing deadly weapons, but also protection against violation of the National Firearms Act which provides penalties up to five

BIBLE READING IN THE PUBLIC SCHOOLS

Back in the days of the thirteen original colonies wherever there was a church there was a school. And everywhere the chief textbook of the schools was the Bible. It is plain history to say that the public-school systems of our land originated as Bible Schools.

In the public schools of America today the reading of the Bible is a matter on which each of the 48 states makes its own ruling.

The American Bible Society, in a recent survey, finds that Bible reading in the public schools is required in 11 states, prohibited by 4 states and in the remaining 33 it is permitted although not required.

FORTY YEARS AGO

I wandered to the village, Tom sat beneath the tree
Upon the school house play-ground
That sheltered you and me

But none were left to greet me, Tom
And few are left to know
Who played with us upon the green
Just forty years ago

The same old brick are in the wall
The bell swings to and fro
It's music just the same, dear Tom
Twas forty years ago.

The old school house is altered some
The benches are replaced
By new ones very like the same
Our jack knives had defaced.

Near by the spring upon an elm

You know I cut your name
Your sweetheart's just beneath it, Tom
And you did mine the same.

Some heartless wretch had peeled the bark
Twas dying sure but slow
Just as that one whose name you cut
Died forty years ago.

And kneeling down to take a drink
Dear Tom I started so
To see how much I'd changed
Since forty years ago.

I visited the old church yard
And took some flowers to strew
Upon the graves of those we loved
Some forty years ago.

And when our time shall come, Tom
And we are called to go
I hope we'll meet with those we loved
Just forty years ago.

NOV. 6TH ELECTION, 1945

I am convinced that all Trial Judges should be elected on a Non-Partisan Ticket in order to eliminate all Politics from that office which could cause the Judge to be accused of showing partiality, favor, and thereby causing a miscarriage of justice. He should be elected on his QUALIFICATIONS ONLY. He should comply with the oath he takes when inducted into that office; that is, to serve all the people according to Law, regardless of their Politics, nationality, Religion, or color.

I have, for the past sixteen years, rendered all my judgments according to the law, and with as much mercy as the Law permitted. I feel that I am now much better qualified—legally, physically, and morally, to serve you than ever before. PLEASE DON'T FORGET About My Eyes!

"I KNOW you older folks are busier than you ever were before. But I've only got the one pair of eyes—and if you don't help me take care of them, you and I may both regret it some day."

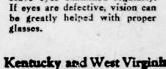

It's a fact that many people are too busy—and too worried to take the simple precautions that help conserve precious eyesight. Here are three easy rules anyone can follow.

Avoid shadows. Make sure you have good light & shade on your book or work. Shadows strain eyes.

Avoid glare from bare bulbs. Don't sit facing the light. Glare strains eyes.

Have eyes examined regularly. If eyes are defective, vision can be greatly helped with proper glasses.

**CONSERVATION OFFICERS
MAKE ARRESTS**

Frankfort, Ky., Sept. 30.—A couple of Kentucky boys, one 16 and the other 15, had to learn the hard way, but a couple of Kentucky judges exercised due wisdom and the lesson was not as hard as it might have been.

Both lads were arrested by conservation officers for hunting out of season and one court, the 16-year-old paid a fine of one cent and costs; in the other, only costs were assessed and the 15-year-old defendant was placed on his good behavior.

In his report to the Division of Game and Fish, the first judge wrote: "This lad of 16 years was honest and frank about this violation. He had his license but did not know the season had expired. Taking everything into consideration, the attorney recommended a reduction of the charge was acceptable to the court."

The second judge reported: "This defendant being only 15 years of age, and this being his first offense, the court placed him on his good behavior."

The hard part: Each boy paid \$9.50 in court costs.

—V—

Frankfort, Ky.—Conservation Officers of the Division of Game and Fish made 98 arrests for Kentucky game law violations during the month of August, 1945. Frank Phillips, supervisor of enforcement for the Division, said that was by far the highest number for any August of the past four years.

Violation of fishing regulations topped the list of charges on which defendants were haled into court. In addition

to fines and costs, the defendants lost nets, machines, fish traps, guns and other paraphernalia which Phillips estimated to be worth in the neighborhood of \$2,000. The material was declared contraband.

Disposition of the cases was as follows: 65 convictions, nine in which defendants were acquitted, and 24 cases pending.

FOOD FOR THOUGHT

When bugles sound their final notes And bombs explode no more And we return to what we did Before we went to war.

Will make some worthy gentleman

Feel like an awful mess.

Just think of some poor Captain!

Minus all his silver bars

Standing up behind some counter

Selling peanuts and cigars.

And think of all the majors

When their oak leaf's fast behind

And the uniform they're wearing

Is the western union kind.

Shed a tear for some poor Colonel!

If he doesn't feel himself.

Jerkings sodas isn't easy

When your eagle's on the shelf.

Tis a bitter pill to swallow

Tis a matter for despair

Being Messengers and clerks again

Is a mighty cross to bear.

So be kind to working people

That you meet wher'er you go

For the guy who's washing dishes

May have been your Old O.C.O.

**SIX YOUTHS ARE
CHARGED WITH
HOUSEBREAKING**

This week six youths from the Hemphill area in the Whitesburg Jail charged with storehouse breaking.

The officers: Jim Short, Willard Hall, Mack Bentley and Shelley Lequire gave the report to the Eagle. On last Sunday night the Service Dry Cleaning Plant on neon was broken into and some \$2500 worth of clothing stolen. Browning's Cash Grocery was broken into the same night also Burkman's residence in Hemphill.

Those accused were soon rounded up and today are being held by Judge B. F. Wright under \$5,000 Peace Bond and have also been indicted by the Letcher County Grand Jury for housebreaking in two counts. When the accused were apprehended they had on their persons quite a large quantity of home made hand-grenades and had proceeded to plant them in several dangerous places where they had been. Among the accused are five young men and one young girl, three of whom have been in prison before or the reform school and also one ex-service man.

According to Mr. Fulton, owner and manager of the Service Dry Cleaning plant, practically all of the merchandise taken from his business has been recovered.

Dear Sirs:

I just received my copy of The Mountain Eagle and was very much pleased with it. I notice where a lot of the boys are coming home. I know how they feel, and I would like to be on my way home, but as it is my outfit pulls out for China the 27th of this month. We will be one hundred and fifty miles south of Tinsen. I understand they have some bad winters there. The "Scuttle Butt" will leave there around the first of the year.

As you know, we had a tough time on Okinawa, our division is credited with 75 percent of the island. Our losses were very heavy. Tell all the folks hello for me and I will see them soon.

Thanking you, I remain,

OBITUARY

Frank Edward Potter, the son of Frank and Francis Potter, born Jan. 30, 1921, passed from this life Sept. 22, 1945, at the age of 24 years. In Dec. 1943 he joined the Government and was calling for volunteers for military service, young Edward Potter boldly and willingly sacrificed his companionship with his parents, brothers, sisters and neighbors here, and went to serve his country.

He served in the Army five years, with 3 years of that time overseas. He fought through Africa, Sicily and Italy, was wounded three times and was one time captured in Sicily and held 12 days by the enemy before being recaptured by his own Army. He was honorably discharged from military service May 30, 1945.

He has two brothers still in service, Charlie and Earl. In his passage he leaves father, mother, 7 brothers and sisters and eight half brothers and sisters and a large number of relatives and too a multitude of friends as has been shown by the hundreds that came to view his war worn body. On Tuesday, Sept. 25th his funeral was preached at the First Church of God at Neon by Elders Newt Meade, T. R. Collier and W. S. Tollever amidst a very large congregation and on Wednesday at 10 o'clock he was given a military burial in the Potter Cemetery just above Neon. Our hearts are so deeply wounded that time can never heal, but neighbors and our hundreds of friends that came to offer their sympathies and the preachers said so many nice things. There were so many friends, and the people did so much to make our burden lighter, that surely we can bear it better. Sorrow has come in our home before by reason of death but none has been so hurtful. When we think of his long absence from home (5 yrs.) Being three times wounded, Being captured by the enemy and the untold suffering he endured—so soon after he came home to live with us if his life was taken from him. May we say here that we trust and pray none other soldier that fought, suffered and done so much for his country will so soon after coming home be sent into eternity by one that our boys fought and died for. In closing may we thank and thank again everyone who came or wrote to us in any way.

May the blessings of God rest with each of you.
Sincerely,
—Mr. and Mrs.
Elbert Fugate and
Entire Family.

She was fourteen years of age at her death, and is survived by her parents and the following brothers and sisters: Ollie Mae, Anna Lois, Audrey Jean, Bobbie Ray, Ernest, Edward James and Glen. Clarett was a pretty, sweet little girl, and because of her disposition and affliction the favorite and pet of her home. She was always kind and cheerful. RUPTURE**SHIELD EXPERT HERE**

H. M. SHEVANAN, widely known expert of Chicago, will personally be at the Cumberland Hotel, Middlesboro, Friday only, Oct. 12, 9 A. M. to 4 P. M.

Mr. Shevanan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevanan will be glad to demonstrate without charge.

6509 N. Artesian Ave., Chicago.

Large incisional hernia or rupture following surgical operation especially solicited.
